

# Staying safe with technology

Mr Rowley

# Sid Knee

You could use a nickname

Teacher for many years

I live near Birmingham

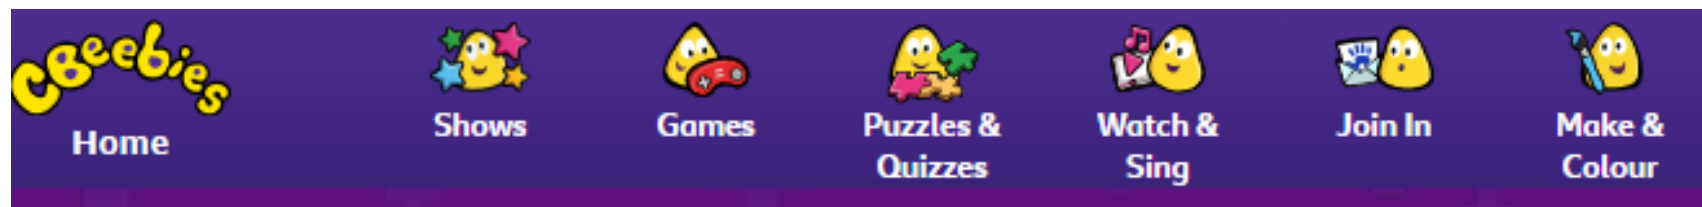

I've got 2 grown up children

I like cycling

You don't  
need to use a  
real picture

*You don't need to give away personal  
information online*

Lots of good things to see and do on the Internet

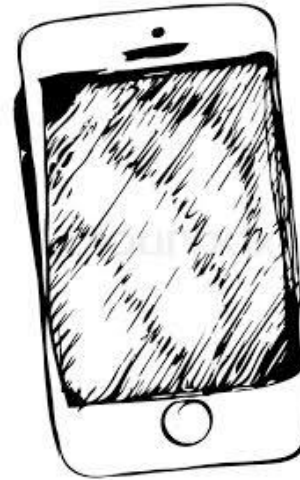

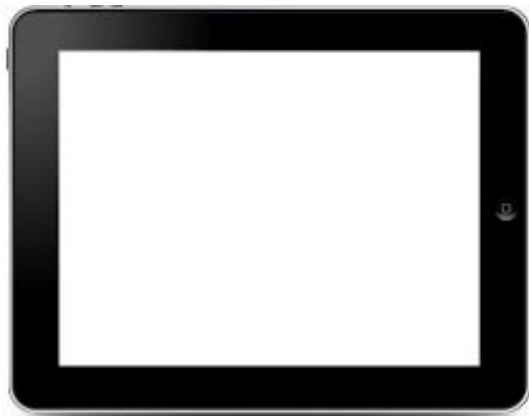

I can play and learn on the internet.

# Time spent on technology.

Computers, phones, tablet devices, games consoles ...

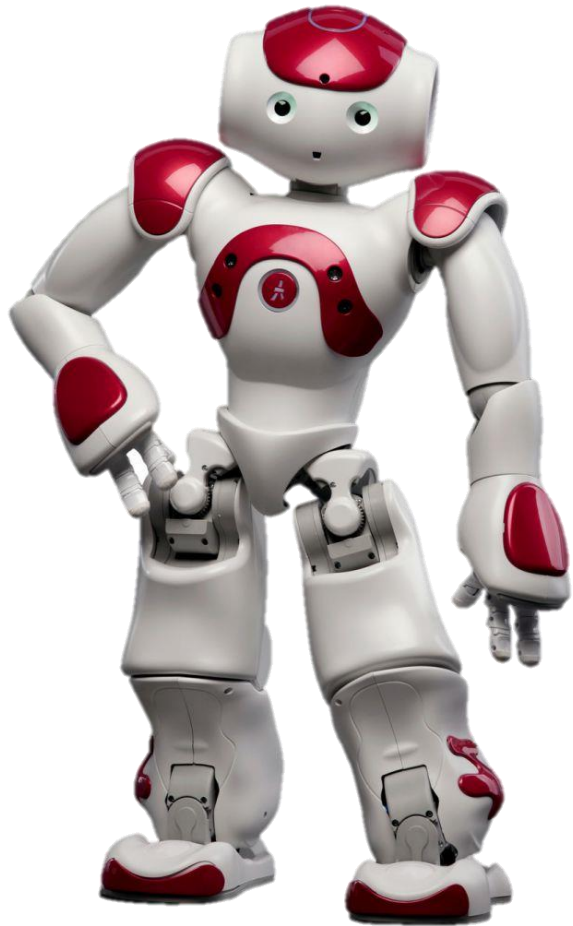

Taking photos ...

What do you think? Who should you ask?

- ...a family member taking your photo
- ...of each other
- ...a stranger taking your photo
- ...me taking a photo of NAO

# Introducing NAO

- He can talk
- He can sing
- He can walk

Online Safety is really important.

Remember when going online, **be safe, be responsible and be respectful.** Together we need to make the Internet a safe place to be.

- I am careful with technology devices
- I know not to spend too much time using a computer, tablet or games device
- I can ask an adult I trust to help me make good choices if I am not sure about something, or if I see something I don't like when I use the internet or an app

# Limit the time you spend on technology.

Computers, phones, tablet devices, games consoles ...

So what sort of things do we do  
with our tech?

**We use apps to make music, play games, and draw pictures.**

Apps written for young children are normally easier to use than those made for older children or grown-ups. Grown-ups use apps to do things like shopping or looking up the weather.

**You can use websites to find pictures, videos, games and information. It is good to ask a person you trust before you use a website so that you know it is safe.**

Some websites have pictures or videos that can make you feel worried or scared.

Tell a grown-up you trust if you do see anything like this.

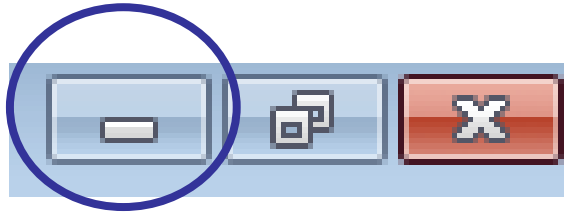

**You can choose games to play on your computer.**

Some games consoles let you play with other people online.

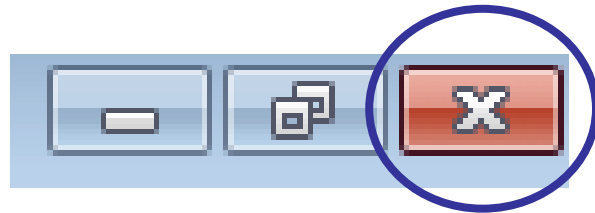

You should ask an adult who you can play with online

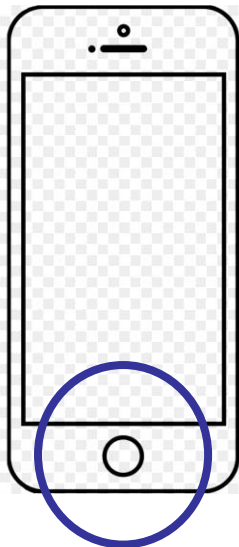

# What can you do if you click on a website which has pictures or words that upset you?

Minimise the website

Close the website

Press the Home button

Tell an adult you trust so that they can look at what has upset you.

# Time to Introduce NAO

Appears to be quite clever

- talks
- can recognise objects
- dances
- walks
- plays football
- can carry out instructions
- is known as a humanoid robot

Admired for his design and build, whilst his programmers are admired for their skills and creativity.

On second thoughts:

- he is humanoid BUT not human
- he cannot speak for himself
- he has no feelings
- he cannot make informed decisions
- he shows no consideration for others

As humans we can be admired for the choices we make and our ability to be:

Safe

Responsible

Respectful citizens

## Our Online / Offline Behaviour

It can be quite tricky making good choices and decisions.

In an online environment this is even more important as the person / audience can't judge your tone of voice / see the expression on your face

Online Safety is really important.

Remember when going online, **be safe, be responsible and be respectful.** Together we need to make the Internet a safe place to be.

# The SMART Rules

## SAFE:

S

Keep your personal information safe. When chatting or posting online don't give away things like your full name, password or home address. Remember personal information can be seen in images and videos you share too. Keep them safe to keep yourself safe.

## MEET:

M

Meeting up with someone you only know online, even a friend of a friend, can be dangerous as this person is still a stranger. If someone you only know online ever asks you to meet up, for personal information or for photos/videos of you then tell an adult straight away and report them together on [www.thinkuknow.co.uk](http://www.thinkuknow.co.uk)

## ACCEPTING:

A

Think carefully before you click on or open something online (e.g. links, adverts, friend requests, photos) as you never know where they may lead to or they may contain viruses. Do not accept something if you are unsure of who the person is or what they've sent you.

## RELIABLE:

R

You cannot trust everything you see online as some things can be out of date, inaccurate or not entirely true. To find reliable information compare at least three different websites, check in books and talk to someone about what you have found.

## TELL:

T

Tell a trusted adult if something or someone ever makes you feel upset, worried or confused. This could be if you or someone you know is being bullied online. There are lots of people who will be able to help you like your teachers, parents, carers or contact Childline – **0800 11 11** or [www.childline.org.uk](http://www.childline.org.uk)

# The SMART Rules

## BE SMART WITH A HEART

Remember to always BE SMART WITH A HEART by being kind and respectful to others online  
Make the Internet a better place by helping your friends if they are worried or upset by Anything that happens online.

Always Behave

○ Safely

○ Responsibly

○ Respectfully
