

In Year 1, the children have been thinking about sharing images online.

We know that we need to be careful about putting photographs of ourselves and on the internet ***"We must check with our mummy or daddy first"***. We know you should not put any of our personal details online ***"Our personal details are just for us, we do not share them. Things like our names and where we live."***

The children have been designing an 'All about me' collage picture that represents their personalities without giving away any of their personal information.
